Support for Maersk Line's Request for Transfer of MSP Operating Agreements
[MARAD-2003-16248] - 77

Dear Sir:

Please add my name to those who strongly support Maersk's request to transfer the fifteen MSP operating agreements from U.S. Ship Management (USSM). It is important to U.S.-flag shipping, national security, and the stability and reliability of defense sealift for the Maritime Administration (MARAD) to approve the MLL's request.

As a member of the Seafarers' International Union (SIU) that provides unlicensed crew for the vessels involved, it is vitally important to me and my fellow Seafarers that this matter come to a close. Transferring the vessel operating agreements to MLL provides the long-term certainty about crewing and the future of the vessels in the program that are critical to the U.S.-flag Merchant Marine and national defense sealift.

MLL is a respected commercial operator that provides vital assets and systems needed to meet defense sealift requirements, including employment opportunities for seafarers. The SIU is proud to provide unlicensed crew to many Maersk ships performing defense missions, not just those in MSP. Allowing Maersk to directly operate these ships, instead of through a middle-man like USSM, is the best way to ensure our jobs and the future of the program.

After nearly eleven months of debate the time has come to bring this matter to closure. I strongly urge MARAD quickly to approve the application to transfer the MSP operating agreements from USSM to MLL in order to ensure our future and that of the program.

Sincerely,

Name:

Address:

Support for Maersk Line's Request for Transfer of MSP Operating Agreements
[MARAD-2003-16248]

Dear Sir:

Please add my name to those who strongly support Maersk's request to transfer the fifteen MSP operating agreements from U.S. Ship Management (USSM). It is important to U.S.-flag shipping, national security, and the stability and reliability of defense sealift for the Maritime Administration (MARAD) to approve the MLL's request.

As a member of the Seafarers' International Union (SIU) that provides unlicensed crew for the vessels involved, it is vitally important to me and my fellow Seafarers that this matter come to a close. Transferring the vessel operating agreements to MLL provides the long-term certainty about crewing and the future of the vessels in the program that are critical to the U.S.-flag Merchant Marine and national defense sealift.

MLL is a respected commercial operator that provides vital assets and systems needed to meet defense sealift requirements, including employment opportunities for seafarers. The SIU is proud to provide unlicensed crew to many Maersk ships performing defense missions, not just those in MSP. Allowing Maersk to directly operate these ships, instead of through a middle-man like USSM, is the best way to ensure our jobs and the future of the program.

After nearly eleven months of debate the time has come to bring this matter to closure. I strongly urge MARAD quickly to approve the application to transfer the MSP operating agreements from USSM to MLL in order to ensure our future and that of the program.

Sincerely,

Name:

Elbad Colon
